

Sage FAS Fixed Assets

FAS Nonprofit Asset Inventory

FAS Nonprofit Asset Inventory offers a comprehensive solution to meet the unique requirements of nonprofit organizations for fixed asset tracking and data collection.

Providing you with the flexibility you need to satisfy your specific requirements, FAS Nonprofit Asset Inventory enables you to achieve total control over your fixed asset inventories, and efficiently create and track multiple physical inventories of assets at every step. You can thoroughly track your fixed asset inventory while eliminating lost or stolen assets and reducing insurance overpayments.

With an easy-to-use wizard that walks you through every step of conducting and reconciling your inventory, FAS Nonprofit Asset Inventory makes automating your fixed asset inventory tracking simple. FAS Nonprofit Asset Inventory allows you to efficiently perform physical inventories using state-of-the-art Windows OS barcode readers. You can conduct multiple inventories concurrently at various sites and reconcile data at one central location. And, since it has more than 40 fully customizable fields, you can control data entry with notes and images to describe each asset record.

The flexibility of FAS Nonprofit Asset Inventory allows it to support both “Baseline” inventories for creating an initial list of fixed assets, and “Dynamic” inventories of existing assets. Combined with FAS Nonprofit Asset Accounting, you have a powerful tool to meet all of your tracking and reporting needs.

From developing innovative products to providing quality customer support, Sage is dedicated to surpassing expectations in all aspects of your organization. BENEFITS:

COMPREHENSIVE TRACKING

Check-In/Check-Out feature with activity history enables monitoring of mobile assets, and available user fields allow for data entry to be standardized. Photos and documents for each asset can be stored including class, acquisition date, general ledger asset account, location, and much more, eliminating duplication in asset tracking and facilitating clean audits.

FLEXIBLE CONFIGURATIONS

With the wealth of features offered including configurable data fields, and “Asset Templates” that promote data integrity and accelerate the process of entering new assets, you can customize your Sage FAS Nonprofit fixed assets solution to work the way you want to.

STREAMLINED INVENTORY

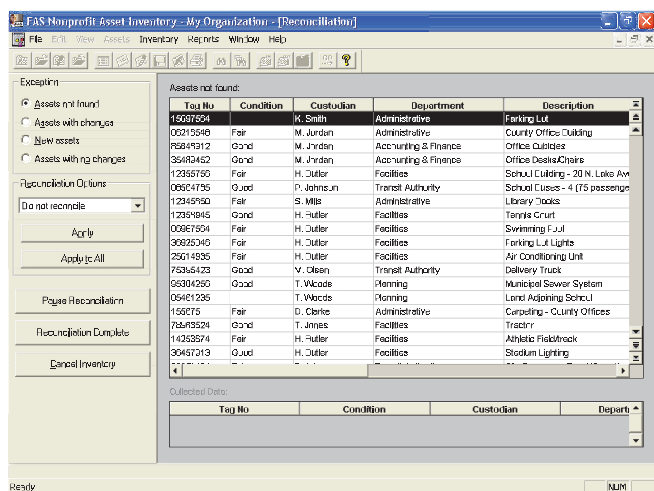

Asset labels and barcode readers complete the inventory solution: Optional components, durable, preprinted barcode labels made of polyester, foil, or aluminum and Windows Mobile barcode readers make tracking assets quick, easy, and accurate.

SECURE ACCESS

Security profiles can be defined differently for each individual user who has access to the system, ensuring that only those individuals allowed to change the data are able to.

QUALITY SUPPORT

Sage FAS SupportPlus members benefit from an unmatched level of customer support. Visit our online knowledgebase or call the Sage FAS Customer Support center, and our friendly, knowledgeable experts are ready to help. SupportPlus members can also download software upgrades, access multimedia tutorials, and take advantage of exclusive discounts on new products.
