TimeSheet

Automate Time and Expense Tracking for Project-Oriented Businesses

TimeSheet is a project and resource management solution—ideal for your business if you want to electronically assign jobs to employees and collect data on actual time spent and costs incurred on each task. TimeSheet includes a seamless integration to Job Cost, Payroll, TimeCard, Accounts Payable, and Accounts Receivable modules in your Sage MAS 90 or Sage MAS 200 ERP system.

Easy to install and administer, this comprehensive solution for internal or remote workgroups of any size helps track time and expenses by many user-defined levels, including employee, department, client, project, and individual task. TimeSheet supports a robust approval mechanism that allows your organization to configure an approval process that matches your internal procedures and policies. Plus, TimeSheet is easily adaptable to your organization's project structure and workflow.

For over a decade, thousands of organizations have relied on TimeSheet as their time and expense tracking software to provide up-to-the minute analysis on project budget costs, estimated time to completion, and resource utilization. By enhancing your Sage MAS 90 or 200 ERP system with the capabilities of TimeSheet, you can improve billing cycles, increase cash flow, and streamline expense reimbursement by leveraging automated Accounts Receivable and Accounts Payable invoicing generation facilities.
